Trip Details:

- The purpose of the wilderness trips are to experience God through Creation, build leadership skills, and bond together as a cabin.
- Catalyst 1 students embark on a 3 night wilderness trip with in the first week of arrival.
- Catalyst 1 students were taught and equipped to plan their own wilderness adventure as a cabin. Each cabin was assigned their first campsite, however from there, the group had full agency over their route, whether they back packed or canoed, their food they packed, their gear they brought, and how they logically completed the adventure.
- Each camper in the cabin participated in becoming the Leader of the Day (LOD) which entailed directional navigation, campsite management and more.
