AUDIT POLICY

Undergraduate:

With permission of the course instructor, any Wheaton student may audit up to two courses a semester by filing an approved audit application at the Registrar's Office by the add deadline for the course. Petitions for adding audits after the deadline will not be considered. A \$50 audit fee is charged per course, plus any course fees. An audit does not meet any Wheaton degree requirement. No credit is given for courses audited. To have the audit recorded as completed on a student's transcript, the student is required to complete certain course requirements. Private lessons, tutorials, internships, practicums, independent studies, and courses taken during study abroad programs cannot be audited. Students may not audit any class for the purpose of preparing for a competency exam.

Graduate School

Any student carrying a full-time academic schedule (8 or more semester hours) may audit one course without charge by filing an approved audit application at the Registrar's Office by the add deadline for the course. Petitions for adding audits after the deadline will not be considered. In addition, part-time graduate students who will complete *all* graduation requirements by the end of the current semester are entitled to a free audit. No credit is given for courses audited. To have the audit recorded on a student's transcript, the student is required to complete certain course requirements. In addition to the audit fee, any course fees will also be charged. Part-time graduate students auditing courses are charged the student audit rate.

Spouse Audits: The audit privilege for a full-time graduate student may be used by the student's spouse if the student is not auditing a course. Application for a spouse audit is made through the Graduate Admissions Office.

EXPERIMENTAL COURSES (on the schedule, but not in the catalog)

PSYC 340. Introduction to Industrial/Organizational Psychology. (4 cr.) CRN 84566

This course will introduce students to the principles and methods of industrial/organizational psychology, examining how I/O researchers and consultants make use of the scientific method and principles of organizational development to improve organizational effectiveness. In particular, the course will focus on personnel psychology, motivation, organizational behavior, team dynamics, and leadership. Across the semester, students will team up to design their own organizational change proposal using the material covered during the course.

SOC 330. Immigration and Religion. (4 cr.) CRN 84567

Why do people migrate? What are the economic, political, and cultural factors that shape immigrants' experiences? How do both immigrants and host communities change as a result of immigration? What role do churches and other religious institutions play in the incorporation of immigrants? In this course, we will consider key issues and debates within the field of immigration from a sociological and Christian perspective. We will take a comparative approach, learning from cases in North America and Europe.
